# Craft365 Classes - Requested updates

Danes Notes:

- Different Days and Times (sessions)
- Different Ticket Prices for each day and time.
- Different Booking Cutoff times i.e. have to book before 10AM 20th October 2019

The interesting thing with these is they are actually sent out as well, assuming we are in this case managing admittance through the digital card / booking number? Therefore the supplier will need a view to show their active classes and people who are booked into these, along with their booking number. Ultimately would be good to have them check users in too.
